

# Quality Community Schools Support Grant Request for Information – Criteria 2

The Quality Community School Support grant provides additional funding to community schools that meet criteria established by the General Assembly. Community schools meeting eligibility criteria can receive \$2,250 in each fiscal year for each pupil identified as economically disadvantaged and \$3,000 in each fiscal year for all enrolled students. Payments for each fiscal year are calculated using the full-time equivalent number of students enrolled in the community school for the current fiscal year, as reported by the school pursuant to section 3314.08 of the Ohio Revised Code. The Ohio Department of Education makes grant payments to each community school meeting quality criteria in January.

Note: The Department will utilize the most recent sponsor evaluation rating as permitted by law.

Community schools must satisfy the following criteria to receive funding.

### Criteria 2:

The community school meets all the following criteria:

- (1) The school's sponsor was rated "exemplary" or "effective" on the sponsor's most recent evaluation conducted under section 3314.016 of the Revised Code.
- (2) The school is in its first year of operation or the school opened as a kindergarten school and has added one grade per year and has been in operation for less than four school years.
- (3) The school is replicating an operational and instructional model used by a community school that met Criteria One based on the 2022-23 report card.
- (4) If the school has an operator, the operator received a "C" or better on its most recent performance report published under section 3314.031 of the Revised Code.

### Criteria 2 Request for Information

Community schools meeting Criteria 2 requesting designation as a Community School of Quality will need to specify the operational and instructional model the community school is replicating that has met criteria One based on the 2022-23 report cards. If the educational plan submitted to the Department does not specifically identify the operational and instructional model being replicating by the community school, the community school will need to provide supporting documentation demonstrating the school is replicating an operational and instruction model that meet required performance criteria. Please complete the required information.
