# (STAT-001) LEVEL 2 STATUS REPORT

## FUNCTION AND PURPOSE

This report is to be used as a tool to quickly identify when a specific Level 2 report was last updated at a district and for the entire state. Initially this report will only be included in the following collections: Beginning of Year Student (S) Collection and SOES Beginning of Year Student (S) Collection. However, starting in FY20, this report will be included in all collections that contain Level 2 reports.

If this report explanation, the other specific Level 2 report explanations, and the EMIS Manual do not answer your questions or help you to resolve your issues with the Level 2 Status Report, then the normal path to getting help with EMIS reporting should be followed. The first point of contact should be the EMIS coordinator, followed by the Information Technology Center, who will contact the EMIS helpdesk if necessary, and finally ODE EMIS directly.

## PROCESS DESCRIPTION

Each row on the Level 2 Status Report represents a potential Level 2 Report that could be available for a district during the collection. Each evening, following the processing of collections and the creation of the various Level 2 reports, the Level 2 Status Report will also be updated with the number of valid counts and the date/time in which the specific Level 2 report was updated.
